<i>Donn</i>	13 LL	88%	8	5	Drilling

*TTS - Turned to sales | WOC - Waiting on completion | SL - Standard Lateral | ML - Mid-Reach Lateral | LL- Long Lateral*

Drilling and completion capital expenditures for the quarter ended March 31, 2018 were approximately \$111 million and funded by the Company's operating cash flows.

### Management Comment

Lynn A. Peterson, Chairman and CEO of SRC Energy commented, "The lack of gas processing capacity and the associated high line pressures continue to prohibit us from increasing our production from the Company's 2017 exit levels and our operations team has done an excellent job working through this difficult situation. We are encouraged by DCP's progress on the plant expansion which is now scheduled ahead of their initial timeframe and should be operational in early third quarter 2018. This plant opening as well as other plants scheduled to be completed in 2018 and 2019 should help alleviate bottlenecks to increased production."

#### **Important Cautions Regarding Forward Looking Statements**

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact are forward-looking statements. The use of words such as "believes", "expects", "anticipates", "intends", "plans", "estimates", "should", "likely", "guidance" or similar expressions indicates a forward-looking statement. Forward-looking statements herein include statements regarding expected first quarter results, including capital expenditures, costs, drilling and completion activities, midstream activities and production, and the timing and impact of additional midstream facilities. These statements are subject to risks and uncertainties and are based on the beliefs and assumptions of management, and information currently available to management. The actual results could differ materially from a conclusion, forecast or projection in the forward-looking information. Certain material factors or assumptions were applied in drawing a conclusion or making a forecast or projection as reflected in the forward-looking information. The identification in this press release of factors that may affect the Company's future performance and the accuracy of forward-looking statements is meant to be illustrative and by no means exhaustive.

All

---

forward-looking statements should be evaluated with the understanding of their inherent uncertainty. Factors that could cause the Company's actual results to differ materially from those expressed or implied by forward-looking statements include, but are not limited to: the success of the Company's exploration and development efforts; the price of oil and gas; worldwide economic situation; change in interest rates or inflation; willingness and ability of third parties to honor their contractual commitments; agreements to convey many of the underlying wells through signed or anticipated agreements may not be completed; the Company's ability to raise additional capital, as it may be affected by current conditions in the stock market and competition in the oil and gas industry for risk capital; the Company's capital costs, which may be affected by delays or cost overruns; costs of production; environmental and other regulations, as the same presently exist or may later be amended; the Company's ability to identify, finance and integrate any future acquisitions; the volatility of the Company's stock price; the possibility that additional midstream facilities will not be constructed within anticipated time periods or that such facilities will not have the anticipated effect on operations; and the other factors described in the "Risk Factors" sections of the Company's filings with the Securities and Exchange Commission, all of which are incorporated by reference in this release. Results presented for the first quarter of 2018 are preliminary and subject to change as the Company finalizes its financial statements for the quarter.
